

E³ - Drive Technology[®]

E³ - 驱动技术

EXEDY

开发中

Under Development

概念

Concept

可应对多种移动工具的高通用性电动驱动单元

Universal e-Drive Unit that can be adapted to various mobility applications

特点

Feature

- 机电一体 后接式电动单元

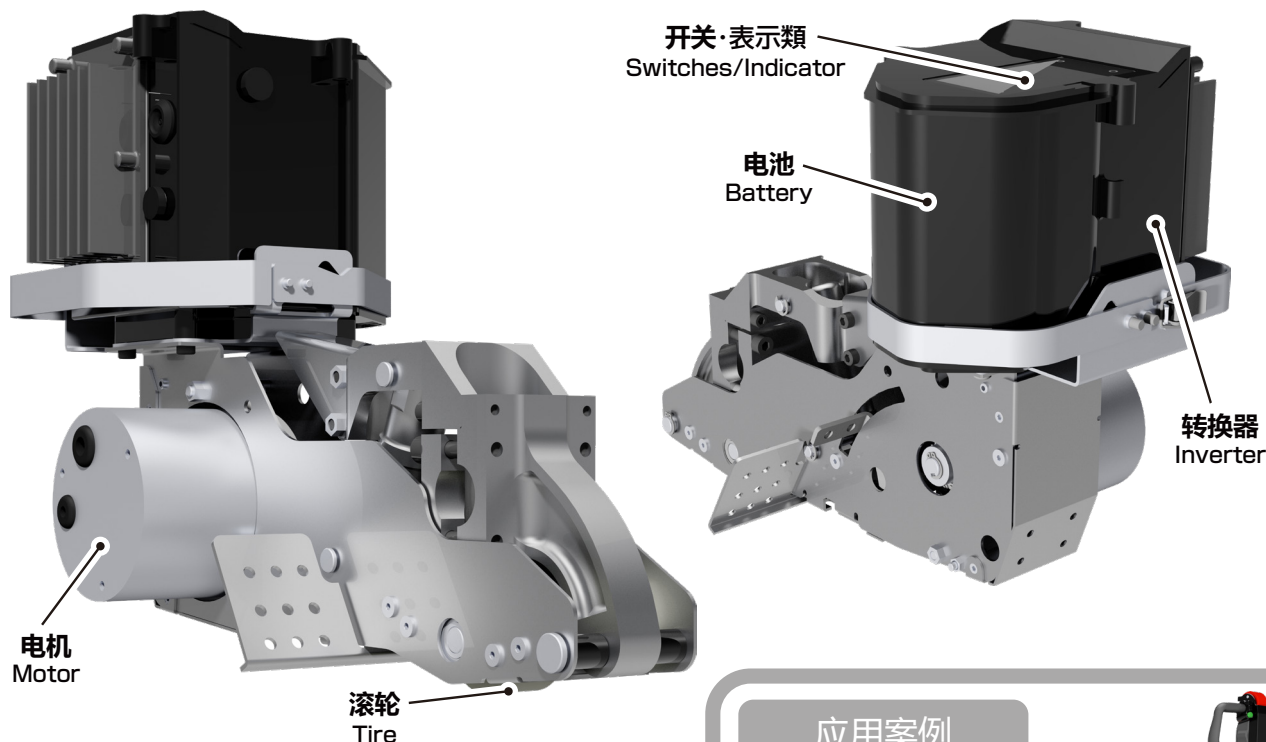

Retrofit type e-drive unit with electric / mechanical integrated structure

- 基于模块化架构的高可扩展性

High scalability based on modular architecture

构造 / 外观

Structure / Appearance

单元规格示例 Unit specifications (Example)

尺寸 Dimensions	L370mm × W230mm × H330mm
目标重量 Target Weight	8kg
输出 Power	250W
电压 Voltage	24V

应用案例 Application example

E³ - Assist Pallet[®]

E³ - 辅助托盘车
